PROJECT UPDATE

August 29, 2017

SURVEYING TO PREPARE FOR FUTURE WATER LINE REPLACEMENT ON KENSINGTON DRIVE

In September, surveyors working for Stewart Engineering, Inc. will be at Kensington Drive to:

- mark (with paint) the location of existing utilities
- survey the locations of curbs, signs, sidewalks, trees, ditches, fences, meter boxes, cleanouts, etc.
- survey the size and depth of sewers, storm drains and water valves
- put flags and/or stakes in the ground as they survey

This information is needed to design the upcoming water line replacement on Kensington Drive between South Lakeshore Drive and Wellington Drive.

We will send future notices about this project to customers in the area.
